## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## **DETAILED ACTION**

### ***Response to Amendment***

The Amendments, filed on August 19, 2004 and filed on August 31, 2004, have been entered and acknowledged by the Examiner.

Cancellation of claims 43-55, 68, 70-72 and 101 has been entered.

Claims 1-42, 56-67, 69, 73-100 and 102-106 are pending in the instant application.

The examiner notes that the pending claims are currently divided in multiple filed documents, accordingly, it is suggested to submit all the claims in a single document for the ease of claim prosecution and future publication purposes. See MPEP 1.173(b).

### ***Reissue Applications***

The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The declaration filed October 17, 2003 refers to the limitation of "fluorescent members located at an inner side of the face plate above an electron-emitting device" present in the original claims 1-14 and 27-42, as a source of one of the errors for which the reissue is requested. Applicant further states that none of the original patent claims provides patent protection for a broader aspect of the present invention not necessarily requiring the specific feature of the fluorescent members located at an inner side or face of a face plate above an electron-emitting device. However, in view of the recapture rule, the above limitation has been incorporated in all of the new independent claims presented in the reissue application, thus the error which is relied upon to support the reissue application is not an appropriate error.

The "at least one error" which is relied upon to support the reissue application must be set forth in the declaration. In identifying the error, it is sufficient that the reissue declaration

Art Unit: 2879

identify a single word, phrase, or expression in an original claim, and how it renders the original patent wholly or partly inoperative or invalid. The declaration must specifically identify an error, by reference to a specific claim and the specific claim language wherein lies the error. See MPEP 1414, sections IIB-IIC, for specifics.

Claims 56-67, 69, 73-100 and 102-106 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
